New Roger Powell Cd

Posted on Wednesday, November 01 @ 22:23:09 MST by admin

Remarkable new Cd by Roger Powell leaps into the modern age with all new technique, but good old fashioned groove. What do you call the music when it sounds like Tangerine Dream, filed under Prog Rock, and labeled as Retro-Future? "Fossil Poets" of course...

Fusion fans will enjoy this hip new project.

Roger Powell • Synthesizers, drum machinery, other stuff
Gary Tanin • Arranger, Producer, General Guru
Greg Koch • Guitars extraordinaire
Herman Serrano • Artwork
